

Lee vs Macon Critical Question Document

****Foundations of Positive Behavioral Support (Part 3)**

Choose one of these critical questions and write a one page reflective response.

1. What is positive behavioral support?
2. Why are the basic principles of behavior important to consider when addressing problem behavior?
3. What are the key features of positive behavioral support?
4. What kinds of interventions are implemented in a positive behavioral support plan?
5. How do you prevent problem behavior from occurring?

****Instructional Strategies (Part 4)**

Choose one of these critical questions and write a one page reflective response.

1. How does each intervention approach in the module fit within a positive behavioral support plan?
2. How does each lesson relate to the hypothesis statement that is developed from functional assessment?
3. What types of interventions take into account the constantly changing value of reinforcers and punishers in a student's life?
4. What types of interventions involve redesigning the environment?
5. What does it mean to replace problem behavior with a new skill?
6. Why is it important to make sure this new behavior you are teaching is functionally equivalent to the problem behavior?
7. What are the basic goals of a consequence intervention?

Each teacher must complete the questions on the previous page and two one-page responses in order to receive credit from the Alabama State Department of Education. These answers and responses should be turned in to your Principal by October 1.
