

CASH MANAGEMENT FOR FEDERAL FUNDS

The Board will minimize the time between the receipt of federal funds from the United States Treasury, the Alabama Department of Education, or other pass-through entity, and the disbursement of those federal funds. Federal funds will only be requested to meet immediate cash needs for reimbursement not covered by prior receipts and anticipated disbursements that are generally fixed, such as monthly program salaries and benefits. Disbursements will be made within twenty (20) business days after receipt of funds.

The chief school financial officer will maintain financial records that account for the receipt, obligation, and expenditure of each federal program fund. Cash balances for each federal program fund and for the aggregate of all federal program funds will be monitored daily by the chief school financial officer or designee.

Board procedures to minimize the cash balances in federal program funds are expected to prevent the aggregate cash balances of federal program funds from earning \$500 or more for the fiscal year if maintained in interest-bearing accounts. The federal program funds, with the exception of child nutrition program funds, will not be maintained in an interest-bearing bank account if the chief school financial officer determines that banking requirements for minimum or average balances are so high that an interest-bearing account would not be feasible. Federal program funds will be maintained in insured checking accounts that are subject to the state requirements for public deposits under the SAFE program.
